Davis Cone: Recent Works

JANUARY 6 THROUGH
FEBRUARY 11

Forum Gallery
Los Angeles, California
An illustrated catalogue is available.

Following its initial showing at the Forum Gallery in New York City (October 27 through December 10), Forum's Los Angeles branch will host this exhibition of work by artist Davis Cone. The show features paintings of Art Deco movie theatres created by the artist from 2001 through 2005. In these works Cone communicates the architectural grandeur of each theatre, and its cultural significance in the American character, through highly detailed, Photo Realistic depictions.
